

The Timothy Freeman, MD, Center for Intellectual and Developmental Disabilities: Internal and Community Partnerships and Impact

July 23, 2023 | NDSC | Orlando

Aurora Rivendale, MDFamily Medicine and Psychiatry

Assistant Professor

Department of Psychiatry

Christy Gregg, CTRS
Program Manager

Aurora Rivendale, MD

- dual trained physician in Family Medicine and Psychiatry
- passion for working with individuals with Intellectual and Developmental disabilities
- focus working in a collaborative care model as a psychiatrist to further aid individuals in their personal journey towards a healthy and full life as they define it

Christy Gregg, CTRS Program Manager

Christine.gregg@uchealth.com

- Sibling
- Certified
 Therapeutic Recreation
 Specialist (CTRS)
- Adult Services 2021-2022 LEND Trainee
- Over 21 years of experience in the field of developmental disabilities and nonprofit work

Within this session you will learn about:

- current work and services
- an interdisciplinary healthcare model within an academic health system
- collaborations and purposeful relationships
- importance of training students
- aspirations for the future

VISION:

To become a national leader in providing healthcare for adults with intellectual and developmental disabilities (IDD) and training future physicians to care for those with IDD by creating an interdisciplinary center of excellence that provides specialized, coordinated, patient-centered healthcare to this historically underserved population.

MISSION:

To provide specialized, coordinated, patient-centered healthcare for adults with IDD and train and empower future physicians to care for this population in their communities.

HOW DID WE GET HERE?

For more than 30 years, **Dr. Freeman** focused his medical practice on the care of adults with intellectual and developmental disabilities. He was a pioneer in this field, caring for those with intellectual and developmental disabilities long before there was national recognition of the need for improved health care for this population.

Transition Clinic

Freeman Center

IDENTIFIED NEED:

- Adults with intellectual and developmental disabilities (IDD) aging out of the pediatric health system
- Demand for adult services > current supply
- Significant health disparities that must be addressed
- Patient population requires highest level of coordinated care not available in present system
- UC Health is uniquely positioned to meet medically complex needs in a coordinated fashion via specialty access
- Freeman Center/Burnet is recognized as regional leader in IDD care but has reached capacity
- Outgrown current infrastructure within the Primary Care Network

SERVICES:

- Primary care
- Behavioral health and psychiatry
- Physical medicine and rehabilitation
- Nurse care coordination
- Dietary support
- Clinical pharmacist
- Social work
- Community navigation
- Physical, Occupational and Speech Therapies
- Healthcare transition planning
- In-person and virtual healthcare visits
- Condition-specific health consultations
- Specialty care referrals

VALUE & **IMPORTANCE** OF A **TEAM APPROACH**

PROVIDERS:

PRIMARY CARE:

- Lauren Wang, MD
- Emily Johnson, MD
- Stephen Janssen, CNP

PSYCHIATRY:

- Corey Keeton, MD
- Aurora Rivendale, MD

PHYSICAL MEDICINE & REHAB:

• Jensine' Clark, MD

SUPPORT TEAM:

Erin Burkey, RN RN Care Manager

Andrea DeRossett,
LISW-S
Collaborative Care Manager
Mental Health Therapist

Christy Gregg,
CTRS
Program Manager

Kristin Harmeyer Community Navigator

Kelsie Newton Dietitian

Laura Shackelford
Behavior Support
Specialist

CLINICAL/SUPPORT TEAM:

Shamyia Ford Medical Assistant

Michele
Morehead
Clinical Operations
Supervisor

Ronesia Stone Medical Assistant

Ivery
Upshaw
Medical
Assistant

FREEMAN CENTER TEAMS:

Support Team

Patient Advisory

Mathematical Advisory Board

▲ Steering Committee

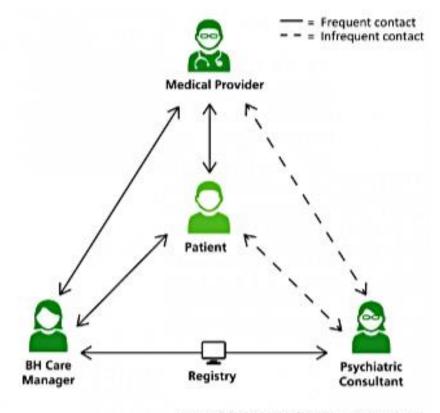

Local and National Committees

COLLABORATIVE CARE:

Collaborative Care Model (CoCM) is an integrated behavioral health services program that includes a primary care physician or other clinician, a behavioral health care manager, and a psychiatric consultant.

Freeman Center is the **1st** in the US to offer Collaborative Care to individuals with IDD

Accommodations, Behavioral Health, and Safety Assessment					
*This	*This screener is to be completed/updated regularly and we encourage updates to be provided from a patient, if any these questions change*				
Name:		DOB:			
How does the patient best communicate (vocal speech, sign language, communication device, etc.):					
1.	Are there basic accommod story, fidgets, etc.)	lation(s) that could be made to help make your/the visit more comfortable? (Social			
	Yes	No			
	If Yes, Please Explain:				
2.	additional supp Does the patient have anxi	uarantee availability of specific rooms or accommodation requests, but can strive to provide sort as available to increase the success and comfort of an appointment * iety that may relate to their visits (ex. vaccines, blood draws, blood pressure checks, aiting room, too many people in the room, etc.)?			
	Yes	No			
	If yes, please explain:				
3.	What are things that help t Preferred activities? Items	the patient to relax when anxious or that may help to calm the patient down? ?			
4.	Do you have individualized needs as it relates to anesthesia?				
	Yes	No			
	If yes, please explain and in	nclude any details about care plan, if applicable:			

5.	Do you anticipate any behaviors that could occur in anticipation of or during the visit?					
	Yes	No				
	If yes, please explain:					
6.	Has the patient or the team worked with a Behavior Support Specialist?					
	Yes	No				
	If yes, who:					
7.		for behaviors? What makes the person anxious, a	ngry, agitated (even slightly),			
	and/or upset?					
8	Does the patient have a history of aggressive behavior towards others, self, or property?					
٥.	Yes No					
		behavior last occur? how often does the behavior	tend to occur?			
	ii yes, when did these types of	believed has occur now often does the believed	teria to occur:			
9	Does the natient have behavio	r strategies or a behavior plan in place?				
-	Yes	No				
	If yes, could we get a copy?	Yes	No			
	Can you please share any strat		-			
10.	10. Does the individual have any restrictions, as it would apply, to their healthcare visit?					
	Yes	No.				
	If yes, please list:					
	11 }					

You may be contacted by Laura Shackelford, BSS UC Freeman Center, Andrea DeRossett, LISW, Mental Health Therapist or another interdisciplinary team member for planning/support purposes. They will work with you and the team to prepare for a successful visit.

EDUCATION/TRAINING:

We are committed to educating future leaders in healthcare through an innovative medical school curriculum, medical student rotations, residency rotations, fellowship opportunities, and training of interdisciplinary team members.

IMPORTANCE OF TRAINING:

- IDD focused longitudinal curriculum for medical students at the University of Cincinnati (2020).
- Staff from the Freeman Center serve as advisors and mentors to the University of Cincinnati College of Medicine's IDD Medical Student Interest Group
- VSLO
- Developmental Medicine Fellowship
- Occupational therapy

COLLABORATIONS:

- UC Champions
- UC Collaborative
- The University of Cincinnati Center for Excellence in Developmental Disabilities (UCCEDD)
- Leadership Education in Neurodevelopmental and Related Disabilities (LEND) Program
- Hamilton County Developmental Disabilities Services (HCDDS)
 - -Behavior Supportstransformative!
- Local and National partnerships

COLLABORATIONS: FUNDING

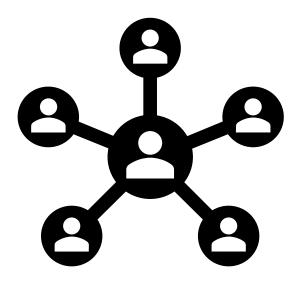

NDSC

- Training
- Program Manager role

Southwest Ohio Council of Governments (SWOCOG)

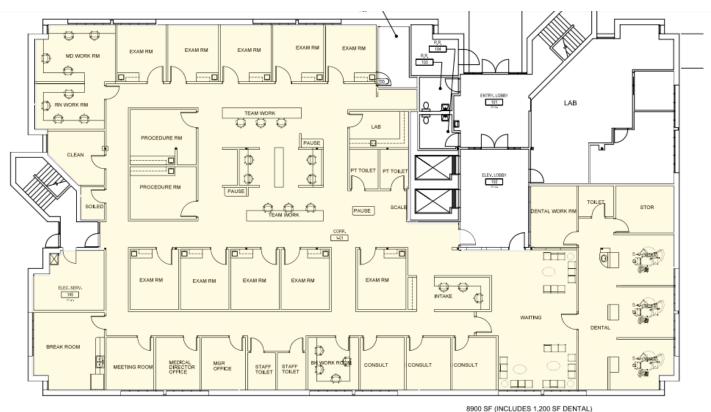

- Group of regional DD county boards
- Community Navigator- recently hired

Local and National grants, budgets and funding opportunities

FREEMAN CENTER CONCEPT DESIGN:

TIMOTHY FREEMAN, MD CENTER FOR INTELLECTUAL AND DEVELOPEMENTAL DISABILITIES

FIRST FLOOR - WEST PROFESSIONAL

APC Design Studio

1.23.23

FUTURE GOALS:

- Launch Capital Campaign for a new space
- Enhance training, safety and accommodations offered at the Freeman Center
- Continue building internal teams
- Continue to expand Community partnerships
- Increased supports and collaborations in Aging and Future Planning
